

# Techy to the Rescue!!

Big Country is at home, mumbling and writing capital T's and capital I's: "Long line down and across the top; long line down, across the top and across the bottom." When The Crew arrives ready to practice, he looks so worried that Jazzy Faith asks him what's wrong. BC said he's worried that he may not be able to finish his homework assignment because he doesn't know how to use the internet. Faith told him not to worry, because she will teach him how.
